

HOW TO VISIT A MUSEUM WITH PEOPLE WITH DEMENTIA

Organizing a visit to the museum - what we need to know before coming to the museum

STEP 1

On paper, write the terms related to the topic of the program for people with dementia. These can be terms like:

- program for people with dementia
- programs for the elderly
- visit with dementia
- dementia museum program
- art program for PwD

Use web browsers for this activity. Enter terms in the search engine and find out if there is an institution or organization near you that offers programs for people with dementia.

STEP 2

Get in touch with representatives of the institution or organization and learn more about the offer and how PwD can participate in the program.

STEP 3

Talk to PwD and ask them what they think about visiting a museum, archive, library or gallery. Explain to them how they can participate in the program, how long the visit will last and what they can expect.
