

USING DOCUMENTS WITH PEOPLE WITH DEMENTIA

HOW TO CAPTURE DOCUMENTS AND PREPARE THEM FOR UPLOAD TO THE BOOM-BOX

Example 1

Job advert captured from an old newspaper (let's assume the PwD worked at the company)

It shows lots of text, small print, refers to different work areas ...
Ask yourself - do you need all that additional information?
Wouldn't the recognisable logo be sufficient?

Prepare for use

Cut out the logo-section using your device's photo-editing software and save it. Consider if you need the whole document later - if so, we recommend not overwriting the file.

Example 2

Company newspaper „Dreihammer“ from the company the PwD worked at.

Ask yourself - are there too many confusing details on the cover? Do they even relate to the PwD's work?

Prepare for use

Do a quick research - is there another issue you could use the whole front page from? If not, cut out the title-section using your device's photo editing software and save it to your device.
